DISCLAIMER

All information and search reports provided are for the exclusive use of the client to whom they are provided.

We make every effort to respect the deadline of the searches. Nonetheless we accept no responsibility in the event of any failure to communicate due to postal, telecommunications or technological services or delivery companies entrusted with the delivery of the search results.

Our online databases are compiled with the greatest of care and are generally accurate and comprehensive. However the information is taken from official records which are compiled and input by third parties. We accept no liability for the information contained therein.

The searches are handled with the utmost care. However, we cannot guarantee the completeness and accuracy of the search reports, which are subject to a number of uncertainties of a legal, technical and personal nature. The Opinions are based on the experience and knowledge of the authors but are of a largely subjective character and can only give an estimation on the legal situation and its current and future relevance for the trade marks to be searched. The Opinion cannot replace the client's own judgement. We must therefore deny all liability for the results of the searches and the respective Opinions.

We accept no responsibility for delays or errors caused by force majeure, including but not limited to acts of public authorities, storms, political unrest, social disorder, computer or technological breakdowns or failures and or any negligent acts of third parties.

Content of database:	<p>The service is able to provide information from more than 200 jurisdictions. Top Level Domains (TLDs) come in two categories: generic and geographic.</p> <p>1. Generic Top Level Domains or gTLDs are not associated with a country and include the following 17 extensions: aero, arpa, biz, com, coop, edu, gov, info, int, jobs, mil, museum, name, net, org, pro, travel</p> <p>2. Country Code Top Level Domains or ccTLDs are associated with a country. They are two-letter codes that represent countries.</p> <p>For some jurisdictions, we have complete domain name files that are fully indexed, for other jurisdictions, we use an intelligent search algorithm that attempts to report the most relevant citations for that particular jurisdiction. The list of domains reported is rather extensive, so limiting your search by geography or trademark groupings is recommended. Three large categories of groups are Trade Groups, Geographic Groups and Generic top Level Domains (gTLDs).</p>
