Welcome to Avantiq 2008

Thank you for taking the time to get familiar with our most recent prices and services list.

We are very excited about this new price list, as we have been working very hard to provide you with more products, and even better services at a fair price.

More and more of you are opting to review your search results within INSPIRO,[®] which makes it easy to stay on top of your work whether you're in the office or traveling. With INSPIRO,[®] you'll enjoy streamlined features which make it simpler to start and review your own search, order from Avantiq, add your opinion and create and store your reports.

For me, the most exciting news is the fact that we now provide round-the-clock search

services, six days a week, on four continents, thanks to our new office in Brazil—as well as partner offices in Japan and Korea—enabling us to provide some of the industry's fastest turnaround times.

If you are part of a legal department conducting searches in house, you'll find us an able partner in times when you may be too busy to conduct searches as needed; our highly-trained search professionals have years of experience and speak a combined total of 15 languages.

For those of you who count on outside trademark search companies for your reporting needs, you'll find the Avantiq difference is evident from the beginning. We guarantee transparency in all of our pricing, procedures and delivery, so that you never

have to doubt the quality of your search results or the value for your money.

We will always:

- Make suggestions for a variety of search options to allow you to choose the most cost-effective method.
- Show you all of the search variations applied, as well as detailed information on the databases used.
- Search cross classes where applicable next to the requested international classes.
- Show you who performed your search and proofread your report, along with their contact information.
- Provide your search results in INSPIRO[®] for your analysis and review.

We count on a combination of training, teamwork, total quality management and technology to provide the best trademark search services in the industry.

If you don't see what you need in this price list, or perhaps want us to develop the best strategy for your searches, please contact our offices in Luxembourg (+352 31 17 501), the United States (+208 344 2313), Brazil (+55 21 2262 9179) or Oceania (+61 882715293), or email us at sales@avantiq.com. One of our friendly staff will gladly provide assistance.

We look forward to serving you!

Brigitta Best
President, Avantiq

Basic search stipulations

1. Deposit

Most of our work is billed at the end of each search. However, we do require a 25% deposit for orders totaling over 50,000€. For orders totaling more than 100,000€, a 50% advance deposit is required unless otherwise arranged.

2. Additional class charges

For certain countries and products, the maximum number of classes charged is twelve. There is no special surcharge for any class. These countries as well as products can be found on pages 5 and 6. Please inquire for further details.

3. Search and delivery times

With some of the fastest turnaround times in the industry, Avantiq prides itself on prompt delivery. However, if you order more than five searches at one time, there is a possibility the turnaround may be extended. We will inform you upfront of any changes to the stated delivery time.

4. Volume discounts

Understandably, large volume clients may wish to negotiate a price break. We offer package discounts on a case-by-case basis; please call for further information.

5. Domain and company name searches

For an individual search where a domain and company name search is requested, we gladly offer an identical domain and company name search for total fee of 25€ per country, up to a maximum of 250€ total per search.

6. Community trademark (CTM) and/or international registration databases (IR)

When searching multiple countries, we will include, where applicable, CTM and/or IR databases for a single charge. For single searches in one jurisdiction, we include CTM and the applicable designated country in the IR database at a reduced price.

7. Make the most of your searches

Our search packages are priced competitively and may save you money overall—check the hints and tips on our package pricing pages to make the most effective buy.

8. Comments

Please note that comments related to single countries are also applicable to those same countries in our package pricing.

9. INSPIRO volume pricing

Volume discounts and flat-rate pricing arrangements are available, please ask about our new flat-rate leaflet.

10. Common law searches

While not mandatory, we advise that with certain countries, such as the United Kingdom, Australia, New Zealand, Canada and the United States, it may be prudent to conduct a Common Law search on top of the trademark search.

11. IR and packages

When International Registration (IR) databases are included in a package price, the search includes only designated IR countries.

12. Currency

All prices listed herein are in Euros.

Word marks: Comprehensive search packages with overall opinion

When you plan to file a trademark in multiple countries—such as the European Union—you may need a general opinion on the availability of your mark. Our overall trademark opinion is provided by an attorney experienced in worldwide trademark matters, and provides a consistent overview on potentially-conflicting marks in the countries searched.

It purposely does not provide an individual opinion on each single country.

Trademark practice varies considerably from one country to another, complicating the trademark application process for non-locals. Also, a vast amount of trademarks are based on a broad description of goods and services, which increases the theoretic risk of potential conflicts.

The legal search pairs our comprehensive search with the expertise of our qualified local associate, who will review and analyze the results, comment on the similarity of each mark cited, and point out any local constraints such as family name rights or moral codes if applicable.

Search includes CTM and IR where applicable.

Device marks: Legal search

The legal device search is a comprehensive device search with a legal opinion provided by our local associates.

Once the search is complete, the local attorney will review and analyze the results, pairing his local knowledge with your specific needs. The end result is practical advice instead of counsel based on theoretic risks. He will comment on each cited mark, highlighting the similarity of the device and will advise, when appropriate, how to overcome the found obstacles. His conclusion will be clear and concise, making it easy for you to decide on your next step.

Both of these searches are available more than 100 countries. Search includes CTM and IR where applicable.

The domain name search allows you to verify if a certain name is registered as a domain name or part of a domain name. Our domain name search is conducted using the most comprehensive domain name database available in the industry, and has been developed with the needs of a trademark practitioner in mind.

The domain name database covers all ccTLDs (Country Code Top Level Domain Names) and gTLDs (Generic Top Level Domain Names). The report contains a hit list of relevant domain names and full WhoIs data, if available, at the time of the search.

Other services: Trademark watching

You've invested a great deal of time and money in developing your brand and growing it globally; now you can protect it with watching services from Avantiq.

Conduct your own watching via INSPIRO® or have us watch your trademarks and/or domain names for you.

Our trademark watching service systematically monitors a variety of trademark use documents, including the internet, trademark applications and related publications. In the event that an exact match or confusingly similar mark is identified, or an instance of unauthorized brand usage or infringement appears possible, our experienced search analysts review the case and report to you for possible further action.

We provide watching coverage for more than 170 countries, alerting you to trademarks that may be confusingly similar to yours, including word marks, logos and slogans. Concise reports provide timely information, so you can act quickly to protect the integrity of your brand.

An trademark in-use search is an excellent tool if you want to verify the use or non-use of a particular trademark by the owner in a certain market. For trademark investigations, our search analysts attempt to ascertain for which goods or services the mark is being used, how long the mark has been in use, and—if the mark is no longer in use—the date of last use. They also stipulate in which countries the products or services bearing the trademark are available, and provide some background on the proprietor of the mark in question.

Avantiq databases

Avantiq® is one of the leading providers of trademark and other IP-related data in the industry, continually adding to and updating our offerings. Developed and hosted by Avantiq®, these databases reflect our reputation for current content, quality and accuracy. Our data is licensed directly from local trademark and patent offices or, in some cases, from trusted law firms who have built local databases in cooperation with Avantiq®.

All Goods & Services have been translated into English using two automatic translation systems which are matched against our proprietary library of Goods & Services in 11 languages. Although the Avantiq® databases have automatically translated the Goods & Services into English, they still include the original native language description.

PTO-hosted databases

INSPIRO® allows you to search PTO-hosted databases as easily as Avantiq's own databases, using the same search criteria. INSPIRO® connects to your selected PTOs, downloads the results, repackages them into a standardized format and brings the results back to your workplace.

Please note that INSPIRO's intuitive query search is not available in the PTO-hosted databases, and some restrictions may apply depending on the search capabilities available through each patent and trademark office.
