welcome to avantiq :: price list

Thank you for taking the time to get familiar with our most recent prices and services list.

We are very excited about this new price list, as we have been working very hard to provide you with more products, and even better services at a fair price.

You'll be happy to find that prices have been reduced on almost 70% of our search products — due in large part to the increasing effectiveness and widespread use of our online platform, INSPIRO®. The few instances in which we were compelled to increase our price—less than 30%—are due either to a corresponding increase in official fees at patent offices, or where we were able to convince first class associates to join our network, sharing their invaluable experience.

More and more of you are opting to review your search results within INSPIRO®, which makes it easy to stay on top of your work whether you're in the office or traveling. With INSPIRO, you'll enjoy streamlined features which make it simpler to start and review your own search, order from Avantiq, add your opinion and create and store your reports.

For me, the most exciting news is the fact that we now provide round-the-clock search services, six days a week, on three continents—thanks to the opening of our Oceania office—enabling us to provide some of the fastest turnaround times in the industry.

If you are part of a legal department conducting searches in house, you'll find us an able partner in times when you may be too busy to conduct searches as needed; our highly-trained search professionals have years of experience and speak a combined total of 15 languages.

For those of you who count on outside trademark search companies for your reporting needs, you'll find the Avantiq

difference is evident from the beginning. We guarantee transparency in all of our pricing, procedures and delivery, so that you never have to doubt the quality of your search results or the value for your money.

We will always:

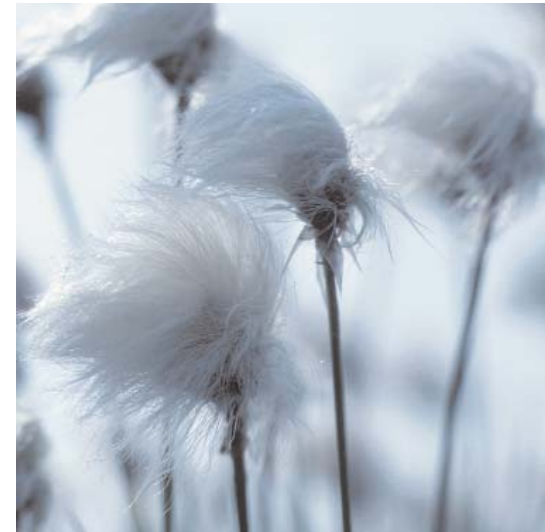

- Make suggestions for a variety of search options to allow you to choose the most cost-effective method.
- Show you all of the search variations applied, as well as detailed information on the databases used.
- Search cross classes where applicable next to the requested international classes.
- Show you who performed your search and proofread your report, along with their contact information.
- Provide your search results in INSPIRO® for your analysis and review

We count on a combination of training, teamwork, total quality management and technology to provide the best trademark search services in the industry.

If you don't see what you need in this price list, or perhaps want us to develop the best strategy for your searches, please contact our offices in Luxembourg (+352 31 17 501), the United States (+ 208 344 2313) or Oceania (+61 882715293), or email us at sales@avantiq.com. One of our friendly staff will gladly provide assistance.

We look forward to serving you!

Brigitta Best
President, Avantiq

basic search stipulations

1. MAKE THE MOST OF YOUR SEARCHES

Our search packages are priced competitively and may save you money overall—check the hints and tips on our package pricing pages to make the most effective buy.

2. DEPOSIT

Most of our work is billed at the end of each search. However, we do require a 25% deposit for orders totaling over 50,000 Euro. For orders totaling more than 100,000 Euro, a 50% advance deposit is required unless otherwise arranged.

3. ADDITIONAL CLASS CHARGES

For certain countries and products, the maximum number of classes charged is 12. There is no special surcharge for any class. Please inquire for further details.

4. SEARCH AND DELIVERY TIMES

With some of the fastest turnaround times in the industry, Avantiq prides itself on prompt delivery. However, if you order more than five searches at one time, there is a possibility the turnaround may be extended. We will inform you up front of any changes to the stated delivery time.

5. VOLUME DISCOUNTS

Understandably, large volume clients may wish to negotiate a price break. We offer package discounts on a case-by-case basis; please call for further information.

6. DOMAIN AND COMPANY NAME SEARCHES

For an individual search where a domain and company name search is requested, we gladly offer an identical domain and company name search for total fee of €25 per country, up to a maximum of €250 total per search.

7. COMMUNITY TRADEMARK (CTM) AND/OR INTERNATIONAL REGISTRATION DATABASES (IR)

When searching multiple countries, we will include, where applicable, CTM and/or IR databases for a single charge. For single searches in one jurisdiction, we include CTM and the applicable designated country in the IR database at a reduced price.

8. EU CLASS DISCOUNT

When searching European Community countries, including CTM and IR databases, Classes 42, 43, 44 and 45 count as a single class and are charged accordingly.

9. COMMENTS

Please note that comments related to single countries are also applicable to those same countries in our package pricing.

10. INSPIRO VOLUME PRICING

Volume discounts and flat-rate pricing arrangements are available, please inquire.

11. COMMON LAW SEARCHES

While not mandatory, we advise that with certain countries, such as the United Kingdom, Australia, New Zealand, Canada and the United States, it may be prudent to conduct a Common Law search on top of the trademark search.

12. IR AND PACKAGES

When International Registration (IR) databases are included in a package price, the search includes only designated IR countries.

13. CURRENCY

All prices listed herein are in Euros.

DISCLAIMER: Please bear in mind that we will do our outmost to respect the prices listed herein, but cannot guarantee them indefinitely. Understandably, outside factors, such as increases in associate costs or official fees from Patent and Trademark offices may come into effect at any time. Out of necessity, we will adjust our prices accordingly and communicate these changes to our clients as quickly as possible.

word marks :: comprehensive search packages with overall opinion

OVERALL LEGAL OPINION

When you plan to file a trademark in multiple countries—such as the European Union—you may need a general opinion on the availability of your mark. Our overall legal opinion is provided by an attorney experienced in worldwide trademark matters, and provides a consistent overview on potentially-conflicting marks in the countries searched.

It purposely does not provide an individual opinion on each single country.

LEGAL SEARCH

Trademark practice varies considerably from one country to another, complicating the trademark application process for non-locals. Also, a vast amount of trademarks are based on a broad description of goods and services, which increases the theoretic risk of potential conflicts.

The legal search pairs our comprehensive search with the expertise of our qualified local associate, who will review and analyze the results, comment on the similarity of each mark cited, and point out any local constraints such as family name rights or moral codes.

Search includes CTM and IR where applicable.

word marks :: legal search

They will also advise in case of negative connotation, discuss owner information, and will propose methods to overcome potential barriers.

Our associates, who have extensive experience in local law and customs, understand that you need practical advice instead of counsel based on theoretic risks.

These attorneys provide a clear and concise picture of the local situation on which you can better base your decision.

device marks :: legal search

LEGAL DEVICE SEARCH

The legal device search is a comprehensive device search with a legal opinion provided by our local associates.

Once the search is complete, the local attorney will review and analyze the results, pairing his local knowledge with your specific needs. The end result is practical advice instead of counsel based on theoretic risks. He will comment on each cited mark, highlighting the similarity of the device and will advise, when appropriate, how to overcome the found obstacles. His conclusion will be clear and concise, making it easy for you to decide on your next step.

Both of these searches are available more than 100 countries. Search includes CTM and IR where applicable.

Our team of expert pharma search analysts have medical backgrounds, and know the pharma landscape intimately.

They are familiar with therapeutic codes, administration, dosage, whether the product is RX, OTC or generic, competitive products, client affiliates and partners, filing strategy, regulatory filing date and planned launch. All this information is considered in conjunction with your specific needs whenever they conduct a pharma search. Our search analysts also search the INN file, as well as Martindale.

Depending on where you are in your clearing process, we'll suggest either an identical knock-out, advanced identical or comprehensive pharma search.

Each Pharma-In-Use report contains full information on the therapeutic code, owner/distributor, launch date, last sale, and sales status.

TRADEMARK IN-USE SEARCH

An trademark in-use search is an excellent tool if you want to verify the use or non-use of a particular trademark by the owner in a certain market. For trademark investigations, our search analysts attempt to ascertain for which goods or services the mark is being used, how long the mark has been in use, and—if the mark is no longer in use—the date of last use. They also stipulate in which countries the products or services bearing the trademark are available, and provide some background on the proprietor of the mark in question.
